All students are expected to purchase and read these materials, consisting of the following cases:		

- Robert D. Austin, CMM versus Agile: Methodology Wars in Software Development, #607084 (fictional case)
- Michael Parent, WaterCo Customer Information and Billing System (A), #W16137 (disguised case)
- F. Warren McFarlan, Robert D. Austin, Caregroup, #303097
- Robert D. Austin, Jeremy C. Short, IPremier Co. (A): Denial of Service Attack, #609092 (fictional case)
- Robert D. Austin, Warren Ritchie, Greggory Garrett, Volkswagen of America: Managing IT Priorities, #606003
- Robert D. Austin, Richard L. Nolan, Mark Cotteleer, Cisco Systems, Inc.: Implementing ERP, #699022
- F. Warren McFarlan, Enabling Business Strategy with IT at the World Bank, #304055

Unless indicated otherwise, these cases are descriptions of actual managerial situations.

Evaluation and Grading Criteria

Grading: The end-term exam will be worth 100 points. Each case discussion will be worth 10 points, with the lowest two dropped. Thus, there are 150 points possible. Plus and minus grades are used on those relatively rare occasions when a student's numerical grade is on the boundary between two letter grade ranges.

Exams: There will be one short-essay and objective exam. The time for the exam will be limited to 120 minutes.

You may bring a single sheet of paper containing notes to assist you during the exam. This sheet can be no larger than 8.5 by 11 inches. The margins and font on this sheet may be as small as you wish. You may use both sides of the sheet. The exam will be paper-based, and answers will be written by hand.

Essay answers will be graded based upon three factors: the answer, the amount of reasoning and facts given to support the answer, and the quality of the writing. Exams will focus upon class lecture material and upon analysis of case studies. You are expected to do each exam on your own without assistance from anyone. Use of e-mail, chat, or similar facilities during an exam will result in a zero grade for the exam. The contents of the exam are to be considered as confidential material for one week: you are not to discuss exam contents until a week after the exam is administered. This is because late exam administration happens frequently.

Cases: There will be seven graded case discussions. Most are based upon actual managerial situations, but one is

	disguised, and two are fictional. Some cases will ask you to make and justify a decision. Other cases serve to illustrate	
	best or worst practices. Preparing for these case discussions is <u>crucial</u> to your success in this class. The individual class participation grade is based upon the case studies. Immediately after each case discussion, I will note who was present, who spoke at all, and will subjectively judge whose participation was excellent. Students who never participate in class should not be surprised to learn that their class participation grade will seriously lower their overall grade in this course. Being absent is recorded as a zero; being present but saying nothing is recorded as six; increasing quality and quantity levels of participation will earn higher scores. If you are unsure how to begin participating, you can get started by coming to class able to recite in your own words the firm's history, markets, and strategy as described in the case; by preparing answers to the rhetorical questions that often appear at the beginning or end of many cases; or being prepared to answer the questions in the course schedule below. The lowest two class participation grades will be dropped. I plan on posting the discussion grades on the Blackboard site.	
	On Effort: Just as is the case with salary determination in most workplaces, grades in this class will be determined by your performance rather than by your effort or needs.	
Schedule of Course Topics Covered, Assignments, Requirements and Assignment deadlines	See Below	
Student Learning Outcomes	I've tried to pick a selection of Information Technology topics that should interest a general manager. By the end of the course, you as a future general manager should be able to demonstrate your knowledge concerning how information systems are developed and delivered, and what can go wrong (both in the development process and with an operational system). You should know how the Information Systems functional area might be organized and governed, and what are the likely consequences of various governance mechanisms. We will also cover business continuity planning, IT security, and legacy systems. You will also be expected in this course to demonstrate certain critical thinking skills in analyzing case studies. You should be able to:	http://www.umkc.edu/assess ment/downloads/handbook- 2011.pdf http://www.umkc.edu/assess ment/index.cfm Nathan Lindsay, Assistant Vice Provost for Assessment 816-235-6084 lindsayn@umkc.edu

- Identify and explain context, issues, and stakeholders.
- Interpret information.
- Evaluate assumptions and supporting data.
- Synthesize information and data and thereby draw inferences.
- Frame personal point of view and acknowledge alternate perspectives.

Course Expectations, Course Policies, Requirements and Standards for Student Coursework and Student Behavior **Responsibilities:** You have responsibilities to yourselves, your fellow classmates, and the professor. You are preparing for a career in business. You have a right to be treated professionally, and a responsibility to treat other people, both professors and fellow students, professionally. In particular:

- You are expected to attend class. Each student is responsible for all information covered in lectures, all announcements made in class, and all handouts distributed during class. If you do not attend class, you will not do well in this course. According to the July-August, 2010 issue of *Academe*, "By tolerating absenteeism, teachers ignore an obvious fact: class attendance significantly improves academic performance. Even after controlling for student ability and prior interest in the course material, studies ... have demonstrated the robust relationship between attendance and academic performance. For example, ... grades of students who regularly attended large lecture courses ... were on average a full letter grade higher than those of students who attended only sporadically. ... These and other studies strongly indicate that students should attend all class meetings if they want to maximize their grades," (page 26).
- Be prepared for and participate in class lecture and case presentation discussions activities. Please ask questions when you don't understand the material and share comments with the class.
- At least occasionally, some of you will know more about a topic than I do since you work with it 52 times 40 hours a year, and I only deal with it twice a year. I encourage you to share your knowledge with the class.
- If you make an appointment with me either keep it or call or email to cancel.
- For 2.5 hours, you owe it to yourself to pay attention to class: turn off your cell phones, turn off your pagers. No text messaging. No Facebook. No surfing the web. No email. I will not enforce this policy unless your behavior is blatant, but your grade will tend to suffer if you violate it
- This class will be conducted in an atmosphere of mutual respect. I encourage active participation, reasoned

		T
	debate, and respectful discourse. During discussions, be	
	patient with ideas that at first might seem weird, be	
	patient with the other members of this course.	
	• Contribute to group in-class activities, if any.	
	You are also responsible for being aware of all	
	assignments, due dates, and other course scheduling	
	information.	
	Cooperation: No form of cooperation during exams is allowed. You may not claim others' work as your own. If academic dishonesty is detected, you will receive a zero on the exam, and your case will be referred to the Vice Provost for investigation and possible disciplinary action. Makeups: The fact that a class participation grade will be dropped takes into account the likelihood that over the course of a semester illness or a business trip will force you to miss class. Makeup examination can be scheduled during	
	business hours during the week before or after the exam.	
	Incomplete : I am permitted to give incomplete grades to	
	students who have been unable to complete the work of the	
	course because of illness or serious reasons beyond their	
	control. This work must be completed within one calendar	
	year to avoid the incomplete grade lapsing to an F. You	
0 11.	should bring up problems in advance when you can do so.	1 //

Academic Inquiry, Course Discussion and Privacy	Faculty allowing recording - University of Missouri System Executive Order No. 38 lays out principles regarding the sanctity of classroom discussions at the university. The policy is described fully in Section 200.015 of the Collected Rules and Regulations. In this class, students may make audio or video recordings of course activity unless specifically prohibited by the faculty member. However, the redistribution of any audio or video recordings of statements or comments from the course to individuals who are not students in the course is prohibited without the express permission of the faculty member and of any students who are recorded, including those recordings prepared by an instructor. Students found to have violated this policy are subject to discipline in accordance with provisions of Section 200.020 of the Collected Rules and Regulations of the University of Missouri pertaining to student conduct matters.	Executive Order #38 (CRR 200.015)
Attendance Policy	Students are expected to attend and participate in classes. Students should notify instructor of excused absences in advance, where possible. Students who have an excused absence are expected to make arrangements with instructor for alternative or make-up work. Such arrangements should be made in advance of the absence, where possible. Instructors should accommodate excused absences to the extent that an accommodation can be made that does not unreasonably interfere with the learning objectives of the course or unduly burden the instructor.	http://www.umkc.edu/catalog/attendancepolicy
Campus Safety	It is possible that it may be necessary to cancel class due to inclement weather or some other emergency. This class will meet if UMKC is open; conversely, if UMKC is closed, this class is canceled. Students who are unable to attend class during bad weather when the class has not been canceled should send email or call and leave a message indicating this. If class is canceled due to any reason, all activities scheduled for the canceled session will take place during the next class meeting including exams. Changes in activities for subsequent classes will be announced. If UMKC cancels or closes the campus at the time of your scheduled final exam, the final exam will also be cancelled, and your course grade will be determined by your already	http://www.umkc.edu/umkc alert/ http://www.umkc.edu/police Police: 816-235-1515 or 911
